

## Accessories on request for all the listed manure spreaders

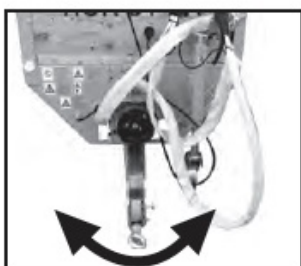

Edge with chain feed, complete with hydraulic engine and reduction gear for binding chain with valve and hydraulic control for regulating the speed of the binding chain and direction inverter with oil and quick coupling operation of the tractor (to be added to the prices of **Mod. A.F.O. - A.F.O.RE - V.B.RS - ecc.**)

cod. SP 001

**SP.TS**

cod. SP 002

(standard for Mod. F.V.S. TOP - F.V.S. TOP VIGNERON)

Drawbar with hydraulic shift and quick coupling operation to facilitate row entry and exit.

cod. SP 005

Pair of rear fins for vertical rollers.

cod. SP 007

**SP.TS.**

cod. SP 008

Axle with mechanical brake.

cod. SP 011

Manual braking system with hydraulic lever, approved for 60q

**SP 014**

Hydraulic braking system with tractor pedal if supplied with 60q approval

**SP 015**

Double joint coupling

cod. SP 0

Independent system complete with pump and oil tank.

It activates:

- Edge with on chain feed
- Drawbar with hydraulic shift

**SP 003**

**SP.TS.**

**SP 004**

Bascule drawbar coupling

**SP 006**

Bascule drawbar coupling for lifter: not homologated for Italian law

**SP 010**

Hydraulic, bayonet rear tailgate with quick coupling operation for liquid, compost products, etc.

**SP 009 BIS**

width + 200 from specified size

**SP 010 BIS**

Axle with hydraulic brake with external jacks and an adjustment valve for brake regulation.

**SP 012**

Openable side boards  
Height 300mm

**SP 013**

Pneumatic braking system  
6.000-8.000kg

**SP 017**
